(100) Service Quality Improvement Reporting
Data Collection Form

FCC Form 481
OMB Control No. 3060-0986/OMB Control No. 3060-0819
July 2013

<010>	Study Area Code	290561
<015>	Study Area Name	CROCKETT TEL CO
<020>	Program Year	2017
<030>	Contact Name - Person USAC should contact regarding this data	Kenith Crose
<035>	Contact Telephone Number - Number of person identified in data line <030>	6013549070 ext.
<039>	Contact Email Address - Email Address of person identified in data line <030>	FillingsRAD@tcc.com

<110>	Has your company received its ETC certification from the FCC? If your answer to Line <110> is yes, do you have an existing §54.202(a) "5 year plan" filed with the FCC?	<input type="radio"/> (yes / no) <input checked="" type="radio"/> (yes / no)
<111>		<input type="radio"/> (yes / no) <input type="radio"/> (yes / no)

If your answer to Line <111> is yes, please file a progress report, on line
<112> delineating the status of your company's existing § 54.202(a) "5 year
plan" on file with the FCC, as it relates to your provision of voice telephony
service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years,
your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a
CETC which only receives frozen support, your progress report is only
required to address voice telephony service.

290561-TN-112.pdf

Name of Attached Document

Please select the appropriate responses below (Yes, No, Not Applicable) to confirm
that the attached document(s), on line 112, contains a progress report on its five-year
service quality improvement plan pursuant to §54.202(a). The information shall be
submitted at the wire center level or census block as appropriate.

<113>	Maps detailing progress towards meeting plan targets	Yes
<114>	Report how much universal service (USF) support was received	Yes
<115>	How much (USF) was used to improve service quality and how support was used to improve service quality	Yes
<116>	How much (USF) was used to improve service coverage and how support was used to improve service coverage	Yes
<117>	How much (USF) was used to improve service capacity and how support was used to improve service capacity	Yes
<118>	Provide an explanation of network improvement targets not met in the prior calendar year.	Yes

Select the appropriate responses below (Yes, No, Not Applicable) to note compliance as a recipient of Incremental High Cost support, High Cost support to offset access charge reductions, and Connect America Phase II support as set forth in 47 CFR § 54.313(b),(c),(d),(e). The information reported on this form and in the documents attached below is accurate.

Incremental Connect America Phase I reporting

- <2010> 2nd Year Certification 47 CFR § 54.313(b)(1)(i) - Note that for the July 1 2016 certification, this applies to Round 2 recipients of Incremental Support
- <2011> 3rd Year Certification 47 CFR § 54.313(b)(1)(ii) - Note that for the July 1 2016 certification, this applies to Round 1 recipients of Incremental Support
- <2022> Recipient certifies, representing year two after filing a notice of acceptance of funding pursuant to 54.312(c), that the locations in question are not receiving support under the Broadband Initiatives Program or the Broadband Technology Opportunities Program for projects that will provide broadband with speeds of at least 4 Mbps/1Mbps - 54.313(b)(2)(i). Round 2 recipients only.
- <2023> The attachment on line 2024 includes a statement of the total amount of capital funding expended in the previous year in meeting Connect America Phase I deployment obligations, accompanied by a list of census blocks indicating where funding was spent. This covers year two - 54.313(b)(2)(ii). Round 2 recipients only.

<2024A> Round 2 Recipient of Incremental Support?

<2024B> Attach list of census blocks indicating where funding was spent in year two - 54.313(b)(2)(ii). Round 2 recipients only.

<2025A> Round 1 or Round 2 Recipient of Incremental Support?

<2025B> Attach geocoded Information for Phase I milestone reports (Round 1 for year three and Round 2 for year two) - Connect America Fund, WC Docket 10-90, Report and Order, FCC 13-

Price Cap Carrier Connect America ICC Support {47 CFR § 54.313(d)}

<2016> Certification support used to build broadband

Connect America Phase II Reporting {47 CFR § 54.313(e)}

<2017A> Connect America Fund Phase II recipient?

<2017B> Attach information for Phase II - 54.313(e)(1) - list of geocoded locations already meeting the 54.309 public interest obligations at the end of calendar year 2015 and total amount of Phase II support, if any, the price

cap carrier used for capital expenditures in 2015.

<2018> Attach the number, names, and addresses of community anchor institutions to which the carrier newly began providing access to broadband service in the preceding calendar year - 54.313(e)(2)(ii)

<2019> Recipient certifies that it bid on category one telecommunications and Internet access services in response to all FCC Form 470 postings seeking broadband service that meets the connectivity targets for the schools and libraries universal service support program for eligible schools and libraries located within any area in a census block where the carrier is receiving Phase II model-based support, and that such bids were at rates reasonably comparable to rates charged to eligible schools and libraries in urban areas for comparable offerings - 54.313(e)(2)(v)

<2020> Recipient certifies that it offered broadband meeting the requisite public interest obligations specified in §54.309 to 40% of its supported locations in the state on December 31, 2017 - 54.313(e)(3)

<2021> Recipient certifies that it offered broadband meeting the requisite public interest obligations specified in §54.309 to 60% of its supported locations in the state on December 31, 2018 - 54.313(e)(4)

<2026> Recipient certifies that it offered broadband meeting the requisite public interest obligations specified in §54.309 to 80% of its supported locations in the state on December 31, 2019 - 54.313(e)(5)

<2027> Recipient certifies that it offered broadband meeting the requisite public interest obligations specified in §54.309 to 100% of its supported locations in the state on December 31, 2020 - 54.313(e)(6)

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

Name of Attached Document Listing Required Information _____

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.

Name of Attached Document Listing Required Information _____

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area.

Name of Attached Document Listing Required Information _____

Five-Year Network Improvement Plan and Progress Report
For Crockett Telephone Company, Inc.

In its *USF/ICC Transformation Order* and subsequent Orders, the Federal Communications Commission (“FCC” or “Commission”) required Eligible Telecommunications Carriers (“ETCs”) to submit a five-year build-out plan in a manner consistent with Section 54.202(a)(1)(ii) of the Commission’s Rules by July 1, 2014 and to submit annual progress reports thereafter.¹ In its *March 5, 2013 Order*, the FCC specified that for rate-of-return carriers, the five-year plans “should describe the carrier’s network improvement plan, which should provide greater visibility into current plans to extend broadband service to unserved locations in rate-of-return service territories.”² Crockett Telephone Company, Inc. (“Crockett” or the “Company”) is a rate-of-return carrier ETC and hereby submits its five-year network improvement plan as well as a progress report covering any progress made on the initial five-year network improvement plan submitted in 2015.

I. The Company’s Five-Year Network Improvement Plan

When the Commission adopted its five-year plan requirements for FCC-designated ETCs in its *2005 ETC Order*, it set forth the following criteria as to how the ETC is to describe with

¹ See *Connect America Fund; A National Broadband Plan for Our Future; Establishing Just and Reasonable Rates for Local Exchange Carriers; High-Cost Universal Service Support; Developing a Unified Intercarrier Compensation Regime; Federal-State Joint Board on Universal Service; Lifeline and Link-Up; Universal Service Reform—Mobility Fund*; WC Docket Nos. 10-90, 07-135, 05-337, 03-109, CC Docket Nos. 01-92, 96-45, GN Docket No. 09-51, WT Docket No. 10-208, Report and Order and Further Notice of Proposed Rulemaking, FCC 11-61 (rel. Nov. 18, 2011) (*USF/ICC Transformation Order*) at Para. 587; *pets. for review denied*, *Direct Comm. Cedar Valley, et al v. FCC 11-161*, No. 11-9900 www.ca10.uscourts.gov/opinions/11/11-9900.pdf (10th Cir. filed May 23, 2014); see also *Connect America Fund et al.*, WC Docket 10-90 *et al.*, Order, DA 12-147 (rel. Feb. 12, 2012) at Para. 5 (amending Section 54.313(a)(1) to clarify this requirement); *Connect America Fund et al.*, WC Docket 10-90 *et al.*, Third Order on Reconsideration, FCC 12-52 (rel. May 14, 2012) at Para. 10 (changing the filing deadline for the annual reports from April 1 to July 1); *Connect America Fund et al.*, WC Docket 10-90 *et al.*, Order, DA 13-332 (rel. Mar. 5, 2013) (“*March 5, 2013 Order*”) at Para.’s. 4, 6-9. Delaying Five-year Plan until July 1, 2014 see WC Docket No. 10-90, Order, DA 13-1115, Para. 8 (released May 16, 2013).

² *March 5, 2013 Order* at Para. 9 citing Section 54.202(a)(1)(ii).

“specificity” the proposed improvements or upgrades to the ETC’s network throughout its service area:

(1) how signal quality, coverage, or capacity will improve due to the receipt of high-cost support throughout the area for which the ETC seeks designation; (2) the projected start date and completion date for each improvement and the estimated amount of investment for each project that is funded by high-cost support; (3) the specific geographic areas where the improvements will be made; and (4) the estimated population that will be served as a result of the improvements.³

In that order, the FCC clarified that service quality improvements in the five-year plan “do not necessarily require additional construction of network facilities.”⁴ Accordingly, the improvements listed in the plan may be projects related to the expansion of the network (one or multiple services), projects related to updating technology to accommodate new services or higher bandwidth or maintenance projects, such as to reduce trouble reports or replace outdated equipment. Additionally, in some cases, the projects may be ones that improve or upgrade the entire network rather than discrete areas within a study area or they may be ones that are ongoing projects that have no specific start and completion dates.

The instructions to the Form 481 state “[r]ecipients may describe where improvements are expected to occur by wire center or census block, as appropriate. To the extent no improvements are planned in specific areas, the five-year plan should so indicate.”⁵ The instructions also require that in subsequent annual progress reports, which must include the total amount of universal support received, this information must be provided “broken out separately

³ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) (“2005 ETC Order”).

⁴ *Id.*

⁵ Instructions for Completing FCC Form 481, OMB Control No. 3060-0986 (High-Cost), OMB Control No. 3060-0819 (Low-Income), July 2013, Line 112.

by the amount spent on capital expenses and the amount spent on operating expenses.”⁶ Accordingly, the Company’s five-year plan separately provides both capital expenditures and operating expenses.

A. The Company’s Major Network Improvement Projects

Based upon this framework, Appendix A updates the Company’s five-year plan submitted in 2015 and reflects Crockett Telephone Company, Inc.’s major network improvement projects for the five calendar years 2016 through 2020⁷ along with the start and completion dates, capital costs, areas and population associated with those projects.

B. How These Projects Will Improve the Network

Due to budget restrictions from diminishing returns on investment from the *USF/ICC Transformation Order*, increased reporting requirements, as well as the loss of access revenue, Crockett was forced to cancel the 2015 Curtis Road remote fiber addition. Crockett invested heavily in 2015 in new mapping software and migration from old software to keep up with new reporting requirements. The second project originally scheduled in 2016 was the fiber to the Alamo business district, this project was postponed until 2020. The fiber build-out to the Alamo business district will increase service reliability and provide greater bandwidth for the estimated 801 business owners and residents in the area.

Ongoing projects include central office power upgrades that will ensure network reliability during outages. Various other upgrades during this time include building improvements, new computers, new vehicles, and other work equipment; these will be used to

⁶ Instructions for Completing FCC Form 481, OMB Control No. 3060-0986 (High-Cost), OMB Control No. 3060-0819 (Low-Income), July 2013, Line 112.

⁷ Based upon informal discussions with the FCC, the initial five-year network improvement plan covered calendar years 2015 through 2019.

replace outdated equipment and address maintenance issues. Crockett requires all batteries be tested regularly to insure reliability of the network under emergency situations, which means regular battery replacement throughout the five years. Routine outside plant upgrade projects will be regarded as the normal course of business for maintaining plant facilities and the network. Finally there will be various broadband upgrades and central office power upgrades. These projects will help to expand the network and update technology to allow higher broadband internet bandwidth speeds. See Appendix A for a full breakdown including costs of the various projects.

C. Estimated Capital Expenditures and Operating Expenses

The first table in Appendix B included herein specifies the capital expenditures (projects) in Appendix A, by Part 32 account, along with the respective year in which the expenditures are expected to occur. In the second table of Appendix B, the projected operating expenses are provided, including depreciation expense for both embedded plant investment and for capital expenditures, which begins when the capital expenditures are projected to be placed into service.

II. The Company's Progress Report on its Five-Year Network Improvement Plan

In 2016 Crockett invested heavily in new mapping software and migration from old software to keep up with new reporting requirements; this means the projects originally planned for 2016 were altered. The Curtis Road fiber addition project was cancelled and the fiber to the business district is now scheduled for 2020. Crockett Telephone Company, Inc. hereby provides the following required elements of its progress report to satisfy Form 481 reporting obligations.

A. The Amount of Universal Service Support Received by the Company

For the 2015 calendar year Crockett Telephone Company, Inc. received a total of

██████████ in high cost universal service support ("USF") through the following mechanisms:

- ██████████ for Interstate Common Line Support ("ICLS");
- ██████████ High Cost Loop Support ("HCLS");
- ██████████ for ICC CAF Support;

B. How Crockett Telephone Company, Inc. Has Used USF to Improve Service Quality, Coverage and Capacity

Section 254(e) of the Communications Act of 1934, as amended requires ETCs to use Universal Service support ("USF") "only for the provision, maintenance, and upgrading of facilities and services for which the support is intended."⁸ Pursuant to Section 54.314 of the FCC's rules, in order for state-designated ETCs to receive USF for the coming year, states must annually file certifications by October 1 stating that all federal high-cost support provided to such carriers within the state "was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended."⁹ ETCs not designated by a state must file similar certifications with the FCC.¹⁰

In its *USF/ICC Transformation Order*, the FCC clarified that prior to making the Section 254(e) certifications, states should conduct a "rigorous examination of the factual information" contained in the annual Section 54.313 reports, of which the five-year network improvement plan and annual progress reports are a part, in determining whether they can certify

⁸ 47 U.S.C. § 254(e).

⁹ 47 C.F.R. § 54.314(a).

¹⁰ 47 C.F.R. § 54.314(b).

that carriers' support has been used and will be used only for the purpose for which the support was intended.¹¹ The FCC said that it would also use the reports to verify certifications filed by ETCs that are not state-designated.¹² In this context, the Commission stated, "[i]n light of the public interest obligations we adopt in this Order, a key component of this [Section 254(e)] certification will now be that support is being used to maintain and extend modern networks capable of providing voice and broadband service."¹³

Essentially, under the existing rules and processes, the federal USF received by the Company and other incumbent rural telephone companies are, in fact, an integral part of the recovery of expenditures of rural incumbent local exchange carriers incurred in the provision, maintenance and upgrading of their provision of facilities and services for which the USF is intended. Crockett depends upon its receipt and utilization of federal universal service support to provide rural telephone customers with affordable and quality voice and broadband services.

Accordingly, given the critical role the network improvement plan as updated herein and the progress reports will have in the annual Section 254(e) certification process, Crockett's plan and progress reports demonstrate how the Company has used and will use USF not only for improvements and upgrades, but also for the provision and maintenance of the facilities and services to which the support was intended. The Company hereby certifies that during that year it used USF solely for which the support was intended.

C. Maps Depicting the Company's Network Progress

¹¹ See *USF/ICC Transformation Order* at Para. 612.

¹² *Id.*

¹³ *Id.* (emphasis supplied).

Attached to this Five-Year Network Improvement Plan as Appendix C is Crockett's map depicting the extent of the Company's network within its service area and indicating specific geographic areas associated with certain projects listed above.

D. Network Improvement Targets Not Met

In 2016 Crockett invested heavily in new mapping software and migration from old software to keep up with new reporting requirements; this means the projects originally planned for 2016 were altered. The Curtis Road fiber addition project was cancelled and the fiber to the business district is now scheduled for 2020. Crockett met all ongoing improvements targets in 2015.

-  4/1 Capable
-  10/1 Capable after 2020
Remote Addition

Crockett Telephone Company, Inc.'s demonstration of complying with applicable service quality standards and consumer protection rules:

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make "a specific commitment to objective measures to protect consumers."² The Commission found that for wireless ETCs, compliance with CTIA's Consumer Code for Wireless Service would satisfy this requirement" and that the sufficiency of other commitments would be considered on a case-by-case basis.³ In this context, the FCC stated, "to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement."⁴

Crockett Telephone Company, Inc. ("Company") hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company is subject to consumer protection obligations under state law. These obligations include, but are not limited to, the following: (1) filing a Local Exchange Tariff pursuant to the Rules of Tennessee Regulatory Authority, Chapter 1220-4-1-.03 and the Tennessee Code Annotated, Title 65, Chapter 5, Part 1, §65-5-102, which disclose rates, terms and conditions of service to customers; (2) adherence to state consumer protection requirements governing telephone providers which require

¹ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) ("*2005 ETC Order*").

² *Id.* at para. 28.

³ *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: "(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy." *Id.* at n. 71.

⁴ *Id.* at n. 72.

implementation of Basic Utility Obligations in accordance with the Rules of Tennessee Regulatory Authority, Chapter 1220-4-2-.29, Consumer Safeguards as identified in the Rules of Tennessee Regulatory Authority, Chapter 1220-4-2-.55, anti-slamming procedures as required in the Rules of Tennessee Regulatory Authority, Chapter 1220-4-2-.56; (3) truth-in-billing requirements in accordance with the Rules of Tennessee Regulatory Authority, Chapter 1220-4-2-.58; and (4) CPNI, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

Crockett Telephone Company, Inc.'s Ability to Function in Emergency Situations

Crockett Telephone Company, Inc. ("Company") hereby certifies that it is able to function in emergency situations as set forth in Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2)¹ and Rules of the Tennessee Regulatory Authority, Chapter 1220-4-2. The Company's network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities within company exchanges. Changing call routing translations will also allow the Company to manage traffic spikes throughout its network, as emergency situations require. The Company does not have an alternate path of egress and therefor is reliant on a single meetpoint for broadband and voice network availability outside the local exchange carrier's boundary.

The Company has an agreement with Crockett County 911 to make the Emergency Management Authority building that neighbors the Alamo Central Office a secondary 911 dispatch location. The Company will re-route 911 traffic to the secondary location in the event that the primary 911 facility cannot be reached. If the Company is unable to deliver 911 calls through the normal path to the PSAP, the Company would re-route calls to appear on the administrative lines at the 911 center's primary location.

¹ Section 54.202(a)(2) requires ETCs that are designated by the Commission to "demonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

In accordance with the Rules of Tennessee Regulatory Authority, Chapter 1220-4-2, 1220-4-2-.23 Emergency Operation, the Company's central offices have adequate provision for emergency power. Specifically, each central office building is supplied with standby generators and battery back-up that enable the central office to keep running until power is restored so long as fuel is available, or until system changes are made to reroute traffic.

Voice Services Rate Comparability

Crockett Telephone Company, Inc.'s calculation for rate floor certification:

Crockett Telephone Company, Inc. (Crockett) certifies that its pricing of fixed voice services is no more than two standard deviations above the applicable national average urban rate floor for voice services. Crockett calculates the average local voice rate using the following formula:

Local Rate + State SLC + State USF + Mandatory EAS

The local rate for Crockett's customers is \$17.00, there is no state SLC or USF and no mandatory EAS. Based on the formula above, Crockett Residential rates are \$17.00, well below the threshold of \$41.07 set by the Wireline Competition Bureau.

Broadband Services Rate Comparability**Crockett Telephone Company, Inc.'s calculation for rate floor certification:**

Crockett Telephone Company, Inc. (Crockett) certifies that its pricing of fixed broadband services is no more than the benchmark rate set by the wireline competition bureau. Using the FCC Reasonable Comparability Benchmark Calculator Bay Springs found that its broadband service offerings are lower on many packages that meet the minimum requirements.

4Mbps Download/1Mbps Upload 300 GB Usage Allowance

Benchmark = \$72.45

Crockett Price = \$54.95

5Mbps Download/2Mbps Upload 300 GB Usage Allowance

Benchmark = \$72.80

Crockett Price = \$64.95
